Full Scope of Services

Design

- Industrial Design and User Interface Development
- System Architecture
- Mechanical Design
- Electrical Hardware Design
- Software Solutions
- Thermal and Power Management
- Reliability and Compliance Engineering
- Test and Validation
- DFx Services
- NPI and Industrialization

Manufacture

- PCB/Flex Circuits
- LCD Displays
- Cables
- Machining
- Plastics
- Metal Fabrication
- SMT Assembly
- System Integration and Final Test
- Plating and Surface Finishes
- Packaging

Distribution

- Build-to-Order
- Configure-to-Order
- Distribution and Direct Fulfillment
- Outbound Logistics and Hubbing
- Sterilization

Service

- Repair/Refurbishment and Warranty Support
- Service Parts Logistics
- Remarketing
- Asset Recovery
- Reverse Logistics

Value Proposition

- Dedicated medical segment with experienced management team
- World class global quality system
- Design through manufacturing services for electronics and disposables
- Lean Six Sigma/zero defect product and process design solutions
- Combination of vertical integration & leverage from strategic suppliers
- Global footprint
- Supply chain transformation expertise
- Innovation
- Philosophy of partnering with customers in long-term relationships

Flextronics Medical's Global Footprint

Americas

- Aguascalientes, Mexico
- Tijuana, Mexico
- Asheville, NC, USA
- Plano, TX, USA
