FLEXTRONICS ANNOUNCES EARNINGS DATE CHANGE; SECOND QUARTER EARNINGS CALL SCHEDULED FOR MONDAY, OCTOBER 26, 2009

Singapore, August 17, 2009 – Flextronics (NASDAQ: FLEX) today announced that it has changed the date of its previously announced second quarter earnings results conference call from Wednesday, October 28, 2009 to Monday, October 26, 2009. The Company also will host a Mid-Year Business Update Meeting for financial analysts and institutional investors on Tuesday, November 17, 2009, in New York, New York.

The rescheduled earnings conference call, hosted by Flextronics's senior management, will be held on Monday, October 26, 2009 at 2:00 p.m. PT/ 5:00 p.m. ET to discuss the financial results of the Company for its second quarter ended October 2, 2009.

And as previously announced, the Mid-Year Business Update Meeting for financial analysts and institutional investors, hosted by Flextronics's senior management, will be held on Tuesday, November 17, 2009 to discuss the Company's key strategies and initiatives.

Presentations for the earnings call and the Mid-Year Business Update Meeting will be available via the Internet and may be accessed by logging on to the Company's Web site at www.flextronics.com. A replay of the broadcasts will remain available on the Company's Web site after the earnings call and the Mid-Year Business Update Meeting.

Minimum requirements to listen to the broadcast are Microsoft Windows Media Player software (free download at <http://www.microsoft.com/windows/windowsmedia/download/default.asp>) and at least a 28.8 Kbps bandwidth connection to the Internet.

About Flextronics

Headquartered in Singapore (Singapore Reg. No. 199002645H), Flextronics is a leading Electronics Manufacturing Services (EMS) provider focused on delivering complete design, engineering and manufacturing services to automotive, computing, consumer, industrial, infrastructure, medical and mobile OEMs. Flextronics helps customers design, build, ship, and service electronics products through a network of facilities in 30 countries on four continents. This global presence provides design and engineering solutions that are combined with core electronics manufacturing and logistics services, and vertically integrated with components technologies, to optimize customer operations by lowering costs and reducing time to market.
