Flextronics Selected by LG Electronics to Manufacture Assorted LCD TV Products for North and South American Markets

Singapore, August 25, 2009--Flextronics (NASDAQ: FLEX) today announced that it was chosen by LG Electronics (LGE), a global provider of advanced digital products and applied technologies, to manufacture 19, 22, 26, 32, and 37-inch LCD TVs at its Juarez, Mexico facility for distribution to the North and South American markets.

“Flextronics has a broad footprint in North and South America that includes extensive manufacturing capabilities in Juarez. By collaborating with Flextronics, LG will be able to expand its product portfolio and cost effective access to these key markets,” said Didier Chenneveau, Chief Supply Chain Officer at LG Electronics.

“We are thrilled to have been selected by LG as an outsourcing partner for two key markets underscoring the continued importance of low-cost, technically advanced outsourcing from Flextronics,” said Gernot Weiss, president of Flextronics Mobile and Consumer.

In addition to its Juarez, Mexico facility, Flextronics’ Doumen and Brazil facilities will also provide services to support this business.

About Flextronics

Headquartered in Singapore (Singapore Reg. No. 199002645H), Flextronics is a leading Electronics Manufacturing Services (EMS) provider focused on delivering complete design, engineering and manufacturing services to automotive, computing, consumer, industrial, infrastructure, medical and mobile OEMs. Flextronics helps customers design, build, ship, and service electronics products through a network of facilities in 30 countries on four continents. This global presence provides design and engineering solutions that are combined with core electronics manufacturing and logistics services, and vertically integrated with components technologies, to optimize customer operations by lowering costs and reducing time to market.
