### CISCO AWARDS FLEXTRONICS EMS PARTNER OPERATIONAL EXCELLENCE AND B2B COLLABORATION AWARDS

**Singapore –October 13, 2009**– Flextronics (NASDAQ: FLEX) today announced that it has received the 2009 EMS Partner Operational Excellence and B2B Collaboration awards from Cisco. The prestigious awards recognize Flextronics as the EMS partner who has delivered the strongest performance in demonstrating end-to-end operational excellence and for going above and beyond expectations to implement a B2B program, process or initiative.

The esteemed awards were presented during Cisco's eighteenth annual supplier appreciation event held September 30 at Cisco's San Jose campus, which celebrated the exceptional ability of Cisco's suppliers to navigate change, anticipate the future needs of Cisco and Cisco customers and put in place the tools and plans to stay ahead of the curve.

“Flextronics consistently achieved excellent operational results, exhibiting a passionate commitment to on-time delivery and lead times. Flextronics's superior quality results were achieved through world-class sites, where exemplary Lean tools, techniques, and processes are the fabric of the operations involving some of Cisco's most complex products,” said Jeff Gallinat, vice president, Global Manufacturing Operations, Customer Value Chain Management, Cisco.

Cisco presented awards to suppliers that were evaluated for their areas of excellence in contributions toward Cisco's success in fiscal year 2009 and for supporting the Cisco vision of transforming how people connect, communicate and collaborate.

“We are honored to have received recognition and two key supplier awards from our valued customer, Cisco,” said Michael Clarke, president, Flextronics Infrastructure. “We are very proud of our collaborative, long-term relationship with Cisco and remain focused on delivering the highest level of customer satisfaction and providing our customers with value that increases their competitiveness.”

#### **About Flextronics**

Headquartered in Singapore (Singapore Reg. No. 199002645H), Flextronics is a leading Electronics Manufacturing Services (EMS) provider focused on delivering complete design, engineering and manufacturing services to automotive, computing, consumer, industrial, infrastructure, medical and mobile OEMs. Flextronics helps customers design, build, ship, and service electronics products through a network of facilities in 30 countries on four continents. This global presence provides design and engineering solutions that are combined with core electronics manufacturing and logistics services, and vertically integrated with components technologies, to optimize customer operations by lowering costs and reducing time to market.
